FITTING

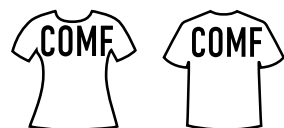

BODY FIT

Our body fit styles are slim cut and rather clinging to your body. Contoured and side seamed for a more next to body fit.

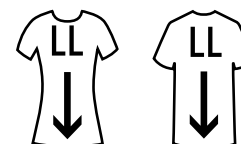

REGULAR FIT

These styles follow your body in a flattering way, without clinging to it. The sleeves and shoulders fit closer to the body. The regular fit is currently the most popular shape.

COMFORT FIT

Drapes away from the body for a relaxed fit and extra movement. A timeless fit has a generous, comfort forward cut and fuller sleeves for freer movement throughout. This fit has a comfortable width.

LONGER LENGTH

In addition to the different sizes, these T-shirts are longer than standard size, which ensures a pleasant wearing comfort.

SYMBOLS

Items with this icon indicate that they will be made from organic certified cotton or recycled GRS certified recycled polyester from 2026 onwards. This allows for a transition period to adjust production.

WHAT WE DO

In this catalogue, you will find our brands DeLuxe, Originals, Workwear and Private Label by Lemon & Soda. 25 employees take care of purchasing, sales, administration and shipping from our location.

We distribute our collection exclusively through an extensive dealer network.

With Lemon & Soda, we have gained an important position in the Dutch market for promotional and corporate clothing. With Private Label by Lemon & Soda, we put together unique items or a complete, tailor-made corporate clothing line. This allows us to always deliver customised work. The brands are sold to end customers through an extensive dealer network. Good cooperation between the purchasing, sales and marketing departments ensures innovation and the right tone in online and offline communication.

Our catalogue is one of our best-known spearheads and has been a comprehensive and clear reference work since the early years. Conscious entrepreneurship is central to Lemon & Soda.

OUR FUTURE

Thanks to the high level of comfort and quality, we want you to enjoy our clothing for a long time. With Lemon & Soda, we strive for a cleaner, fairer and more innovative future. Our priority is to maintain responsible and safe working conditions and to comply with applicable environmental standards. We only work with factories and partners who share our values of a humane and safe workplace. We attach great importance to sustainability and have taken many measures to improve the environment. We know we still have a long way to go, but we are determined to increase our efforts in the area of sustainability.

That is why we have implemented an international code of conduct and Fair Trade rules that all our partners in the production chain must comply with. Lemon & Soda offers only green brands.

Most items in our range from our brands Lemon & Soda and Private Label by Lemon & Soda are produced in accordance with Oeko-Tex standards and the requirements of the ILO Convention.

OUR COLLECTIONS

In today's world, it is more important than ever to present your company in a professional manner. Lemon & Soda has a strong market position with four collections: Workwear, Originals, DeLuxe and Private Label, each with its own characteristics.

It offers an extensive selection that is stylish, functional and comfortable. This 100% Dutch brand has its origins since 1979 and the current collection includes T-shirts, polo's, sweaters, shirts, outerwear and underwear.

The collection is an excellent basis with an eye for a sustainable society.

These are the standard, timeless essentials. They come in the qualities and styles you've come to expect from Lemon & Soda. This collection includes the well-known I-Tee, Basic, Fit, and Basic Mix polo's, as well as the comfortable sweats with the familiar comfort fit. It also includes Poly-Cotton shirts and, in the outerwear category, the beloved fleece vests and bodywarmers.

A true collection with all the essential Originals.

This collection features various comfortable and stylish items specifically designed for workwear. These include our well-known solid and contrast lines, which include T-shirts, polo's, sweaters and even jackets. All are available in a larger size range, with longer lengths for T-shirts and polo's.

Our Everywear collection is also part of our workwear collection. These items are characterized by their premium quality, making them ideal for workwear. This collection also includes T-shirts, polo's, sweaters, jackets, and even a winter coat.

Truly a collection suitable for everyone.

T-shirts and polo's with elastane, heavier weight sweaters, fitted shirts with elastane and functional softshell jackets. That's what this collection consists of and what gives this brand that extra touch of luxury.

All items are crafted with that little bit extra to give you a unique look with a little something extra.

With private label, we create your unique product or collection. We transform your brand and corporate identity into a recognizable, high-quality product or complete collection. From the initial idea to final delivery, we're with you every step of the way.

Our three options: Full Private Label: Complete development from start to finish; Semi Private Label: Existing qualities and colors with your details; and Print Private Label: Quick personalization of existing products. There's a private label for everyone.

Your Story, Your Style, Your Private Label.

T-SHIRTS

I-TEE

T-SHIRT

ALWAYS ON THE MOVE WITH SOFTSHELL

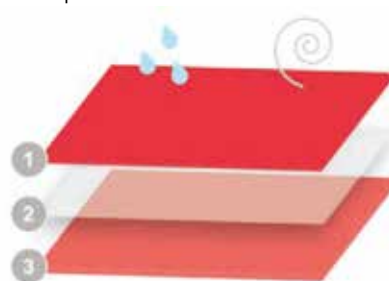

In wintertime or when working outside water resistant clothing is a must. The best protection against nature's way? Softshell! Softshell clothing offers warmth, comfort and is water repellent. It breathes and is flexible, making this type of material very suitable for outdoor activities, such as exercise and work.

There is a type of softshell for every occasion. To make the right choice, keep in mind the Thermoplastic Polyurethane (TPU), water resistance and breathing properties. It will help the wearer to stay warm and dry during activities.

3 Layer softshell bonded - 4 Way stretch

PRIVATE LABEL

BY **Lemon&Soda**

your story, your style

your Private Label

With Private Label by Lemon & Soda, we transform your brand and corporate identity into a recognisable, high-quality item or a complete collection. From the initial idea to the final delivery, we guide you every step of the way to ensure that the end result fully matches your image, target group and brand.

Our years of experience, technical expertise and flexibility make the process simple, efficient and surprisingly creative. Whether you need a Private Label product or want to develop a complete collection, we think along with you, create together and produce with care.

Why Private Label

Private Label by Lemon & Soda assists brands and companies in developing their own clothing line that perfectly matches their identity.

From prints or embroidery to fully developed collections, we translate your (house) style into professional garments with character.

You choose Private Label when you:

- want to create a unique look for your staff, promotion or merchandise
- want to adapt an existing style to your own house style
- want to add premium details or your own twist
- want to fully integrate your brand identity into fit, materials and decorations
- want to create clothing that truly matches the personality of your brand

**Based on your
corporate identity,
we can advise you
even better.**

The result
original, exclusive,
and instantly recognisable

- Strengthen your brand identity
- Unique professional image
- More choice, more creativity
- Increased brand value
- Consistent corporate identity

our 3 options

Three levels of customisation
From fully customised to quick and easy

- 1 Full Private Label**
Complete development from A to Z
- 2 Semi Private Label**
Existing qualities and colours, your distinctive details
- 3 Print Private Label**
Rapid personalisation of existing items

Full Private Label

Full Private Label is the ultimate form of customisation. From the initial design to the final details, we develop your item or collection – including fit, materials, colours, contrasts and branding.

Advantages:

- low minimum order quantity (**from 250 pieces**)
- 100% customised
- unique fabrics and colours (Pantone dyed)
- customised accessories
- complete brand experience
- maximum exclusivity

**Unique design,
unique fit**
for your own
collection

step 1

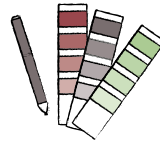

Orientation Phase

The process begins with an initial consultation between you, the customer, and our team. During this consultation, we will discuss your wishes and requirements for your custom-made clothing in detail. We listen carefully to your ideas and ask questions to get a clear picture. We discuss which models and colours you have in mind and whether you have any preferences for certain finishes. You or the end customer may also provide a model. Of course, we can also make this for you.

step 2

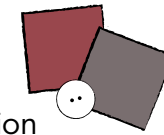

Design Phase

Based on the information we have gathered during the orientation phase, we will start creating the first designs for your Private Label clothing line. We will make sketches to visualise the different styles and designs. We will then present these to you and discuss any adjustments.

step 3

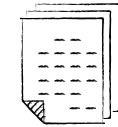

Material Selection

Once the designs have been approved, we will start selecting the right materials. We work with reliable suppliers to find high-quality fabrics and materials that match your designs and quality requirements. We ensure that the materials are comfortable to wear and durable.

step 4

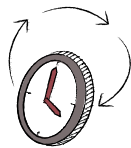

Quotation & Order Confirmation

Once the materials have been selected, the price is requested. This is provided in a quotation, which includes all the details discussed and selected earlier, such as the composition, the processing and the delivery time. If there are any changes, no problem, these can still be incorporated at this stage. Once the quotation has been approved and the dimensions are known, everything is worked out in detail in the order confirmation. Once the order confirmation has been approved, the production process can begin.

step 5

Production & Process

Now that the order confirmation has been approved, we can start the production process for the private label clothing line. We work with experienced manufacturers who specialise in producing customised garments. First, we do the lab dips to determine the right colour. Once the colour has been selected, the fabric is knitted or woven and then dyed. You will then receive any prints, embroidery or other branded accessories for approval.

This is followed by the pre-production sample. Everything that has already been approved in parts is brought together here. It is the right fabric quality, in the right colour, with the right fit and with all the approved finishes and accessories. It is, as it were, the first and final product from the production line. Once this has been approved, production will start.

We are in constant contact with you and the manufacturers to ensure that production runs according to plan and quality is guaranteed.

Details make the difference

Your Private Label item or collection will gain extra character thanks to our wide range of accessories, such as:

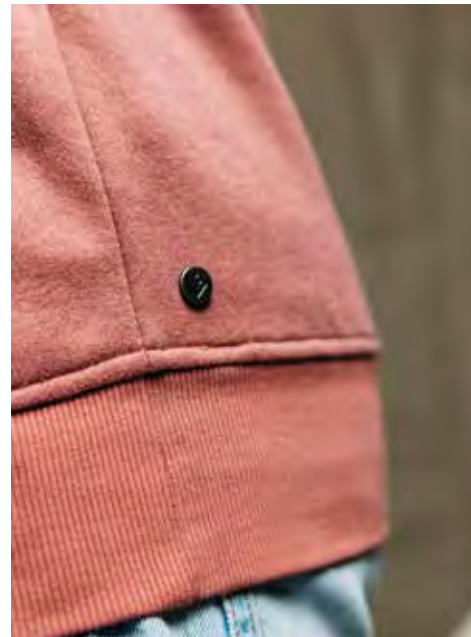

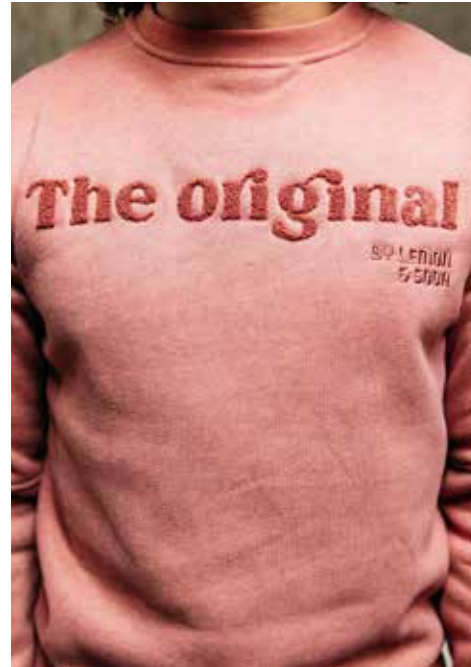

- custom made neck label
- woven, printed or embroidered labels and badges
- silicone, (PU) leather or metal labels and badges
- various printing and embroidery techniques
- embossing (in combination with a transfer)
- personalised buttons and/or pullers
- woven or printed neck tape
- various reflective details
- hang tags
- personalised packaging

Clear delivery times, no surprises

Thanks to long-standing relationships and our own purchasing offices in Bangladesh, China and the Middle East, we can communicate clear and reliable delivery times.

Print Private Label

Your customised
editing here

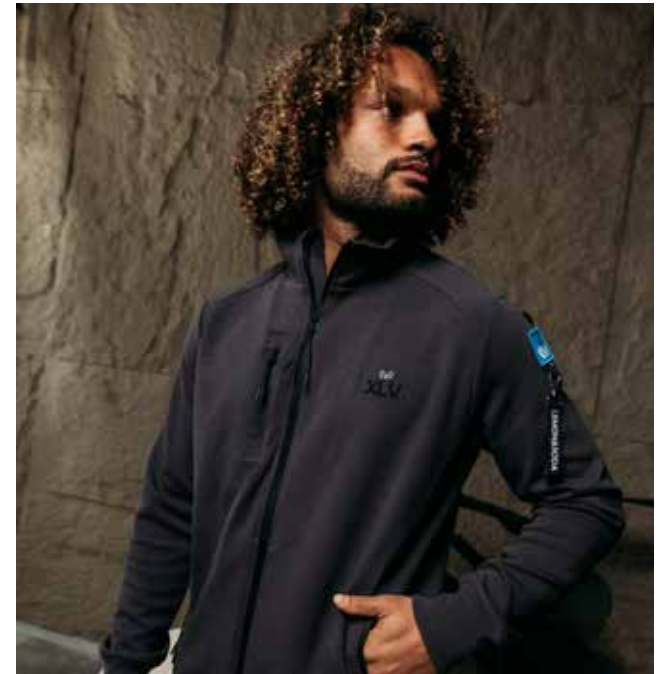

Branding
on existing items
from Lemon & Soda

Print Private Label is ideal when you need quickly recognisable clothing. Choose from our existing range and we will add your logo, artwork or slogan using high-quality printing or embroidery techniques.

Perfect when you want a quickly recognisable, professional result without changing the fit or style.

Advantages

- low MOQ (**from 25 pieces**)
- low entry level
- fast delivery
- peace of mind
- competitive prices
- professional printing and embroidery
- many optional extras (labelling, packaging, etc.)

Quality & Service

Before the order is dispatched, we check each item for:

- sizing
- stitching
- finishing
- colour consistency
- logo & print quality

We work with experienced factories in Bangladesh, China, and the Middle East and maintain strict quality controls.

Even after delivery, we stay involved to support with repeats or improvements for future collections.

From idea to product

completely your
custom-made item

With Private Label by Lemon & Soda, you can create a product that truly reflects who you are: sustainable, distinctive and professional. Are you curious about the possibilities?

We would be happy to help you explore them.

BACK TO SCHOOL

Back to School Project Bangladesh has a very good network of schools at all levels. Children can receive education at very little or no cost. Yet there are families who do not see the opportunities that education offers. They focus on short-term profits and allow children to drop out of school to work in the household or on the farm. That is why Lemon & Soda founded the Back to School Project together with a manufacturer in 2007.

Change the future

The local manual recognized extreme poverty in his village of Gonopaddi, an agro-based and underdeveloped district on India's electronic border. Most children in this region are drop-out students. Many families do not have enough to eat. The lack of education leads to this poverty because they cannot sustain themselves in the long run. Help was needed to change the social and economic situation.

Stimulating children's potential

The Back to School Project noticed these problems and created a program aimed at dropout students. The philosophy of the program is to transform each child into their own change agent. It is not limited to learning; it is also aimed at boosting one's potential. Good practice, helping others and living a healthy life are all part of the project. The goal is to instill self-esteem and value of education in children so that they can influence the economic scenario and engage in social welfare. The Back to School Project has started a huge development; some group 1 students who started the program ten years ago are now studying at the university. These original school leavers aspire to become doctors, engineers, ministers or parliamentarians rather than work in the household or on the farm.

Success of the project

The first year of the Back to School Project started with twenty students with only two teachers. Unlike mainstream schools, there were incentives to go to school: free eggs and biscuits and extracurricular activities to develop other social and cultural skills. They also received soap and toothpaste for health and hygiene. Because of the great results, more and more students wanted to participate and today there are more than 200 students, 20 teachers and computer training programs for the basic courses. Students up to and including class 4 are taught by students of the higher class. Pupils from group 5 come to the

main building to attend lectures given by regular teachers.

Make your own change

Together with the manufacturer, Lemon & Soda helps these children to transfer money themselves. Today there are no real school leavers in Gonopaddi and all children are included in the Back to School Project. They have become their own change agents with the ability to transform the Sherpur district for a brighter future.

In the poverty-stricken village of Gonopaddi, most students learn English by memorizing exercises from their textbooks. After twelve years, most of them still cannot understand and read English. The Back to School English Club was established to help these students – ranging from grades six to grades eleven – develop the English language. Two months after the start of the club, the students have let go of their fears and are fully committed to learning English, driven by their enthusiasm to overcome illiteracy.

Goals of the initiative

- Improve students' understanding and communication skills in English.
- Improve their ability to network.
- Develop leadership qualities in students.
- Progression students in the field of technology.

CAREGUIDE

We care about the garments that we produce, so we choose our materials very carefully. Follow the instructions on the care label to enjoy these garments even more!

Washing tips

- Always read and follow the care label
- Read and follow the instructions on your detergent pack
- Use the recommended amount
- Polar fleece and sweats can best be washed before wearing
- Wash inside out
- Close zippers before washing
- Sort laundry by temperature in care label, 40 °C, 60 °C etc.
- Wash dark colours separate
- Don't iron on decorations
- Always wash a full load
- Pre-washing is not needed for most garments
- If you have a condenser dryer, reuse the water – it's great in irons

Washing & the environment

Washing and drying at home represents 75% of the energy used in a garment's life cycle, so it really is an area where you have an impact on the environment. For the best cleaning, we recommend washing your clothes at the temperature indicated on the care label. Often a piece of clothing only needs to be refreshed instead of cleaned and washing at 30°C is fine. Natural line drying reduces the amount of energy used in the aftercare process. However, it is not always practical and that is why many people use tumble dryers. When purchasing a dryer, think about a good energy classification so that you use the energy in the most efficient way.

CLOTHING WITH A FUTURE

The Lemon & Soda catalog has been a well-known and major player in the promotional and workwear market for many years. In the coming years, with a view to sustainability, we will also be clearly visible online in addition to the catalogue.

Lemon & Soda focuses on economic, social and living environment needs. Sustainability is an important pillar of the articles for Lemon & Soda. Our products are tested for longevity. The origin of materials is transparent and origin and fair working conditions are taken into account.

But it's not just our products where we implement sustainability. It also continues within business operations. In 2024 we installed solar panels. Since last year, there have been charging stations in front of the building for electric cars and we use green energy.

Lemon & Soda has its own large distribution center where used plastic is collected and recycled. Cardboard is reused and our employees think about the use of non-reusable materials. Since 2023, Lemon & Soda has been affiliated with Stichting UPV Textiel. This foundation was established in response to the Decision on Extended Producer Responsibility (UPV Textiel) in the Netherlands, which holds importers and textile producers accountable for collection, recycling, and reuse. Over 650 companies have joined this collective initiative, currently representing more than 70% of the market. The foundation collectively organizes the collection and processing of discarded textiles to efficiently, effectively, and affordably meet the UPV obligations.

Lemon & Soda is for a livable future and takes nature and people into account.

SUSTAINABLE CHOICES FOR A BETTER FUTURE

From 2026, we will be taking an important step towards sustainability. A large part of our collection of T-shirts and polo's, including our bestsellers from the cotton/elastane collection, will switch to organic cotton and/or recycled polyester. In doing so, we are consciously investing in a better future for our customers, for the people who make our clothes, and for our planet.

Why organic cotton?

Organic cotton is grown without harmful pesticides and artificial fertilisers. This means healthier soil, cleaner water and better working conditions for cotton farmers. Organic cotton is just as comfortable and pleasant to wear as regular cotton, with the added bonus of the positive vibe behind it.

The power of recycled polyester

By using recycled polyester, we give plastic bottles and textile fibres a second life. This reduces waste, saves raw materials and significantly lowers CO₂ emissions. The new shirts delivered in 2026 are literally made from recycled materials, without compromising on quality or sustainability.

Softshell Jackets: PFC- and fluorine-free

Our softshell jackets are now completely PFC- and fluorine-free. These chemicals were traditionally used for their water- and dirt-repellent properties, but they are harmful to the environment and health. We choose safer alternatives that are just as effective, so you stay dry and comfortable without hidden dangers to you and nature. In addition, they are made from recycled post-consumer polyester (often abbreviated as rPET or PCR polyester) made from waste material that has already been used by consumers and then collected. This type of recycled polyester is a more sustainable alternative to new (virgin) polyester, which is made from petroleum.

Together we are building a sustainable world

This step is more than a product improvement; it is our promise. A promise that we take responsibility for our impact on the world. By choosing more sustainable alternatives, you are actively contributing to a greener future.

Lemon & Soda and Lemon & Soda Private Label Concept produces and distributes at the lowest possible cost, while considering sustainability and inclusiveness for people and clothing. We strive for the optimal control of all business processes. This allows us to enable financially healthy production and distribution of clothing in the short and long term, in which humanity is central.

Lemon & Soda T-shirts and polo shirts are produced in factories in the Far East. These manufacturers show time and again that they have their affairs in order in terms of working conditions, safety and quality standards. They are audited annually on various points by various certification organizations that then issue certificates to the manufacturers.

All sweaters -except the Everywear- from Lemon & Soda are produced in Portugal. Since Portugal is a member of the EU, there are still a lot of sustainable and ethical rules to comply with as an EU country and therefore a lot of rules, laws and standard are already framed.

The main advantages of producing in Europe:

1. The EU has strict environmental rules and standards for textile production, including restrictions on the use of harmful chemicals. There is also a focus on designing products that last longer and are recyclable.
2. Fair working conditions, within the EU there are strict rules regarding working conditions
3. The EU invests in technologies and systems for collecting, sorting, reusing and recycling textile waste. Separate collection of textile waste is mandatory since 2025 in all EU member states.
4. Production closer to home (within Europe) means shorter transport distances. This leads to a lower carbon footprint through reduced emissions from ships, trucks and planes.
5. The focus on sustainability and circularity stimulates the development of expertise and innovation within the EU, which can keep the textile industry competitive at global level.

Textile production in the EU contributes to a more responsible and sustainable industry, both environmentally and socially, and supports the transition to a circular economy.

SUSTAINABLE

WITH LEMON & SODA, WE TAKE RESPONSIBILITY FOR OUR IMPACT ON THE ENVIRONMENT.

That is why new items are produced using organic cotton and/or recycled polyester. By making conscious material choices, we reduce the use of virgin resources and contribute to a lower environmental footprint. In this way, we combine quality, comfort, and a professional appearance with a more sustainable production process — a process that aligns with organizations that value corporate social responsibility.

STEP BY STEP

TOWARDS A MORE SUSTAINABLE FUTURE

The Lemon & Soda collection stands for comfort, style and quality. In 2026, we will take an important step towards reducing our ecological footprint without compromising on comfort and quality.

In the course of 2026, we will switch the collections below to sustainable cotton and/or recycled polyester. You can also recognise these items by Lemon & Soda by the green label on the items.

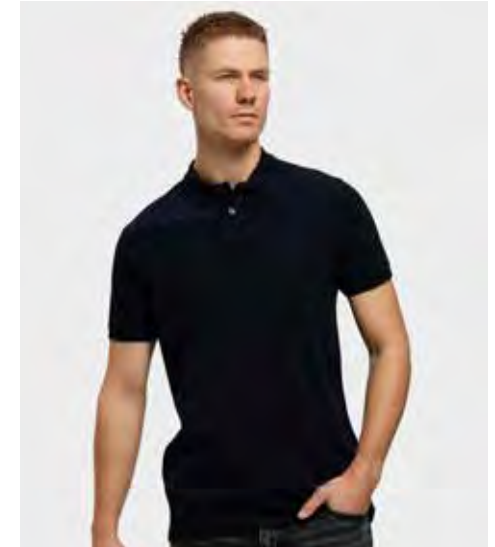

Together we are driving change
Quality, comfort and awareness.
